

Reeves Memorial Medical Center, formerly Tri-Ward General Hospital, has been providing health care for the citizens of Union Parish and surrounding communities for the past seven decades. Founded in 1950 by Dr. William C. Reeves and Dr. Clyde C. Colvin, Reeves Memorial Medical Center has always operated with a focus on patient, employee, and physician satisfaction. Reeves Memorial continues this commitment into our eighth decade of service providing care in the tradition set forth by its founders.

In early 2021, RMMC leadership began creating a master plan for the next 50 years of healthcare at Reeves Memorial. This deliberate process paved the way to planning for a replacement hospital and clinic, with a goal of expanding services while continuing in the proven pattern of compassionate, quality healthcare.

The replacement hospital will be built on the old Bernice school campus. Utilizing current guidelines for modern hospital construction, the design focuses on the patient experience. All under one roof, the new hospital will feature:

- Fifteen modern patient rooms with full bathrooms and space for family members.
- An expanded clinic, ready to provide primary care, dentistry services, and counseling services
- An imaging department with 64-slice CT, mammography, digital X-ray, ultrasound, and echocardiogram
- A safe, secure, and private emergency department with four treatment rooms
- A modern laboratory with thoughtful conveniences to serve patients efficiently
- A large therapy gym with discrete treatment areas and private treatment rooms
- An expanded dining room ready to serve patrons and the community for dine-in or take-out
- A chapel for quiet meditation and reflection
- A 12,000 square foot courtyard for outdoor healing and ambulation

RMMC welcomes donations from grateful patients and members of our community to honor hospital staff, an area of care, a clinical program, or in memorial of a friend or loved one with a financial contribution. There are various needs and programs that continually need support and funding. Please accept our gratitude for your consideration and donations. We want you to know that we carefully use donations for important needs of the hospital to improve healthcare for the entire community.

As a component of our fundraising efforts, we have engaged with Brick Markers USA. Bricks will be used as walkways and patio spaces in the courtyard of the replacement hospital built on the old Bernice school campus.

Additionally, there will be space for bricks to honor, remember and commemorate former students, faculty, and staff of the Bernice school.

You may individualize a brick for you, your family, honor a loved one, or make memoriam. The donated bricks will become a part of the replacement hospital landscape as a lasting tribute, paving the way for generations to come.

It is easy to get started! Read on for details about how to take advantage of this exceptional program that allows your family to become a permanent part of Reeves Memorial Medical Center!

Ordering opens November 1, 2023, and closes December 31, 2024. Bricks will be installed in the final stages of construction of the replacement hospital. There's limited space so place your order as soon as possible.

Brick Markers® USA, Inc. (BMI) offers this free clipart to your club or organization as an opportunity to increase your profit margins. Your club or organization could charge an additional fee to any of your donors/customers that would like to add clipart to their bricks.

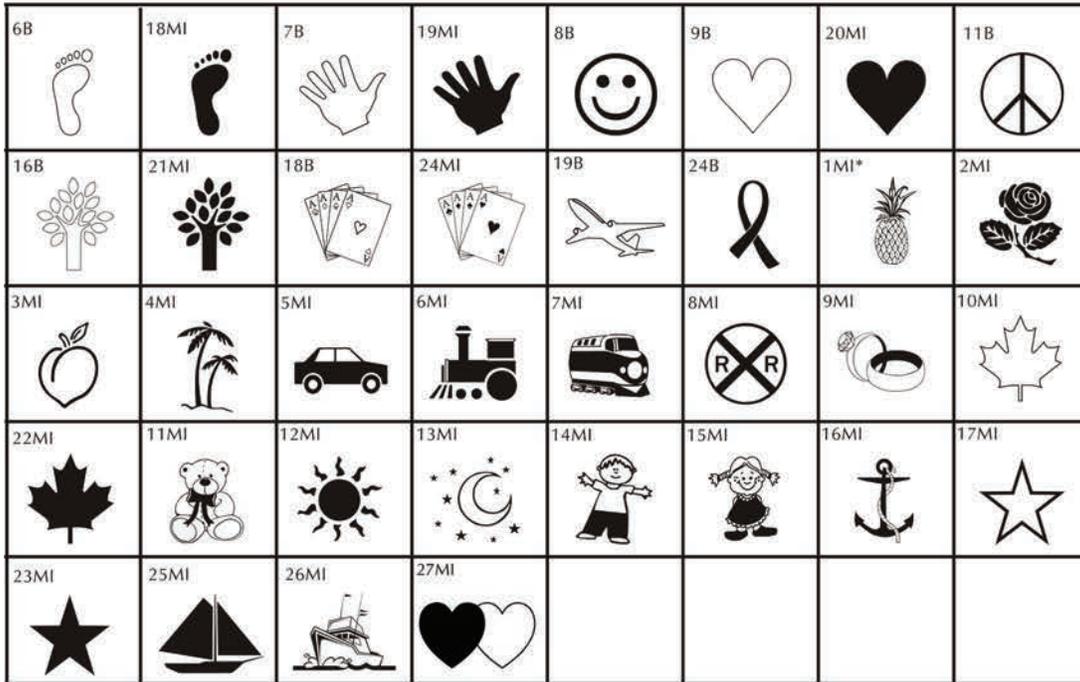

Important Note: Your brick area should have a clean and consistent appearance and should not be filled with too many free clipart images. We suggest that you limit the amount of free clipart images you offer to your donors/customers. For the possible free clipart image layouts, please see the attachment. We highly recommend one layout per size brick (4x8 & 8x8).

BMI Disclaimer: We will always do our best to provide a high quality engraved image. However, with any engraving process, we may lose some of the intricate details of a logo/graphic from the process of engraving. Such lost details should not be considered a defect but simply the result of engraving the image.
