

As part of the annual Adams Elementary Art auction each year, money is designated towards a specific goal. The 2022 project is to complete a brick patio on the south side of the sidewalk walking up to the front doors of the school, and place heavy duty picnic tables for the children to utilize for lunch and outdoor classroom activities. Laying a brick patio will eliminate the lawn maintenance and the need to move the picnic tables around.

We are offering the ability for families, current and past, to purchase custom engraved bricks to be included in the patio design.

We truly appreciate your support for the children of Adams elementary and helping provide an environment for current and future children to learn and enjoy.
