# SAINT CROIX
COMPOSITE SQUADRON

The Saint Croix Composite Squadron serving the Washington Counting and Ramsey County area is working hard to build a new training facility at the Lake Elmo Airport. This facility would provide a location for our squadron to meet and training to fulfill our commitment to the community. It will also provided storage for our CAP resources.

These ties will be prominently displayed at the new hanger as a recognition of those who helped make this possible.

There are 3 levels of support that you can choose from.

For larger support options we can provide a mosaic to prominent display our appreciation for your support of our organization.
