

BRICK FUNDRAISER
HENDERSON RECREATION

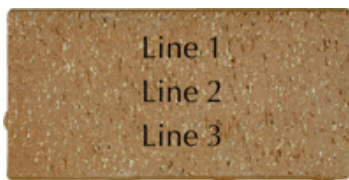

The mission of Henderson Recreation, Inc. is to increase recreation opportunities in Henderson, with a current goal of adding a new park for our community that will include a splash pad. The splash pad is our current priority project because it would add an amenity that would benefit many families who live in and around Henderson, improving the quality of life for residents and provide an additional attraction for visitors.

The splash pad will be constructed as part of a new park in the city of Henderson, on a parcel of property that was part of the former Hilltop Elementary. Splash pads allow families a great way to enjoy summer and a fun option to have as part of our local community. The park shelter not only provides shade and a place for a picnic, but also increases opportunities for families to host reunions or graduation parties and have the splash pad nearby for children attending the gatherings.

By purchasing a brick, you are able to help support this project financially as well as contribute physically to the walking path to and around the splash pad. What is more fun than having your kids and grandkids find their special brick when visiting on a warm summer day?!! Thank you in advance for your support for this project!!
